

Modernization kit ASSA ABLOY M Cover Curtain

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in
door opening solutions

Modernize your leveler with cover curtains for a more attractive and aesthetic look

ASSA ABLOY M Cover Curtain improves the overall working conditions by preventing draft and waste around the loading dock.

By installing ASSA ABLOY M Cover Curtain you will prevent this inconvenience. This makes cleaning easier and faster, and it will also give the docking area a more attractive and representative look.

Key Benefits

Convenience

The ASSA ABLOY M Cover Curtain is an ideal solution that prevents draft into the building by closing the open pits. This will contribute to save energy and create a better working environment for your employees.

ASSA ABLOY M Cover Curtain comes in two versions: One to be installed as a front face curtain on the Teledock and one to be installed as a cover curtain for a tail-lift recess.

Sustainability

Levelers pits often represent a place where there is an accumulation of all kind of waste coming from outside the building.
